

CCS/MUSICAM USA

RoHS DECLARATION

CCS/MUSICAM USA products are sold only for professional use as part of telecommunications networks. The products are rack mounted at the “head end” of communications networks that include other companies’ communications equipments--both at the inputs and outputs of CCS products. CCS products are professional equipments that are “service critical” (i.e., 24/7 operation) and have a life cycle of greater than ten years. CCS products are not sold to consumers and annual volumes are less than 1,000 units.

CCS products are RoHS compliant, except for lead, under EU Directive 2002/95/EC Annex Point #7 and EU Commission Decision of 21 October 2005;

“Lead in solders for network infrastructure equipment for switching, signaling, transmission as well as network management for telecommunication.”
